SEVERE WIND STORM CAUSES MUCH DAMAGE

SEVEN DIE IN STORM WHICH SWEEPS MINNESOTA AND WISCONSIN

Scores of Persons Are Reported
Seriously Injured and Crop Dam-
age Amounting to Thousands of
Dollars Is Done in Northern
States.

CHICAGO, Ill., June 24.—Seven deaths, many injuries, crop damage amounting to many thousands of dollars and minor damage to buildings were caused in a severe electrical and wind storm that swept over Minnesota and Wisconsin from the northwest today. Communication between many cities was stopped owing to the prostration of telegraph and telephone wires and it was feared tonight that a still larger loss of life would be revealed when the full extent of the storm became known. In Minneapolis, Miss Loretta Grams, Margaret Kelly and Louis Grams were drowned while boating when the wind overturned their canoe. Esther Munson was killed when her home collapsed. Two deaths were reported at Wausau, Wis., when a barn in which country wedding was being celebrated was blown down. Another death was reported from Clear Lake, Wis. The storm struck Watertown, S. D., with its full force late last night and demolished 300 buildings comprising sixteen city blocks.

Scores of persons were reported seriously injured. The wind reached a maximum of 68 miles at Sioux City. At St. Paul, the wind velocity was 56 miles. The storm traveled east over Wisconsin, the rain and wind uprooting the young grain and doing much damage to outbuildings. Reports from Appleton, Watertown, Eau Claire, Oshkosh, Madison, Fond du Lac, Wausau, Marinette and Milwaukee indicate that the property damage will be extensive.

Much Damage in Chicago.

Chicago, June 24.—Many parts of this city were plunged into darkness when the storm hit here tonight. A score of buildings, many of them in the downtown district, were struck by lightning and much damage was caused. Thirty-five thousand lights were put out of commission when the feed wires of the sanitary district, which supplies most of the city lights, were affected by the storm.

Hottest Day in St. Louis.

St. Louis, June 24.—This was the hottest day St. Louis has experienced this summer, the temperature reaching 99 degrees at the weather station on top of a twenty-two story building.

The government instrument at street level registered 107 degrees. The long continued drought has produced a water famine in some of the suburban towns supplied by a private water company.

Higher Temperatures in Kansas.

Kansas City, June 24.—Temperatures went higher in Kansas again today and a mark of 102 degrees at Junction City set a new record for the year. The merciless heat throughout the wheat belt is playing havoc with the harvest hands and hundreds of appeals for men were received at the state free employment bureaus.

In central and western Missouri the heat also is making the completion of the wheat harvest extremely arduous.

Terrific Heat in Ohio Valley.

Washington, June 24.—Terrific heat that established new June records in several cities spread over practically all of the country eastward and southward from the Ohio Valley today. In Augusta and Savannah, Ga., the mercury reached 102 degrees.

Around the great lakes and in the north the weather was comparatively pleasant.

Washington, with a temperature of 97, at the weather bureau was the hottest city in the east. That was the record for this summer. Boston and Philadelphia sweltered under 92 degrees. In Chicago, Nashville and St. Louis the mercury climbed to 98.

Denver had a temperature of 92. New York was comparatively cool at 84.

FOUR JURORS ARE CHOSEN IN PETRAS MURDER CASE

Court Rules That Jurors Are Not to be Excused Because They Have Formed an Opinion in the Case If Evidence Can Change It.

Geneva, Ills., June 24.—Hopes of getting a jury to try Anthony Petras, charged with slaying his sweetheart, Theresa Hollander, brightened tonight as a result of a ruling by Judge Irwin that jurors are not to be excused simply because they have formed an opinion as to the guilt or innocence of the defendant. Jurors, whose opinion could be changed by evidence were competent, the court held.

In the last hour of today's session, three jurors were accepted as against one who had been chosen since the trial opened Monday.

The apparent willingness to serve vanished today as the heat continued and the prospect of being locked up for a long trial loomed large.

ANNOUNCEMENTS CANDIDACY.

Danville, Ill., June 24.—F. Royce today announced his candidacy for the congressional nomination on the Progressive ticket and immediately began circulating his petition. Mr. Royce was a candidate two years ago when Frank T. O'Hair defeated Joseph G. Cannon, former speaker and polled 10,000 votes in the eighth

PHILLIPS-M'INTOSH WEDDING IS SOLEMNIZED IN BLOOMINGTON

Ceremony is Said by the Rev. W. S. Phillips of Cerro Gordo, Father of the Groom, in Congregational Church.

COMPLETE PEACE TERMS BETWEEN U.S. AND MEX

CONDITIONS UNDER WHICH NEGOTIA- TIONS WILL BE RESUMED AGREED TO

Protocol is Signed by Representa-
tives of Brazil, Chile, Argentina,
the United States and Huerta—
Selection of Provisional President
to be Left to Informal Conference

NIAGARA FALLS, Ont., June 24.—Terms for composing all international differences between the United States and Mexico have been concluded. The conditions under which diplomatic relations will be resumed were tonight embodied in a protocol which was signed by the ambassadors from Brazil, the Ministers of Chile and Argentina and the American and Huerta delegates.

In the bridal party there were John M. Phillips of Boston, brother of the groom; Miss Sylvia Casey and Miss Cora Wallace of Chicago, and Miss Helen Staatz and Grace Pattison, bridesmaids; Miss Mary McIntosh, sister of the bride, maid of honor; Mrs. Rogers Humphreys of Bloomington and Mrs. D. W. Voorees of Peoria, matrons of honor; Charlotte and Jane Adams, Chicago, flower girls. The ushers were William P. Phillips and Wood Phillips, of this city; brothers of the groom; Julian H. Capos and John M. Widenham of this city; Ben. B. Watson of Kansas City; George Owen Bradford, of Waverly.

The bride is the daughter of Dr. McIntosh of Bloomington, a graduate of the high school there, and a student of music at Wesleyan university. She is a young lady of charming disposition and many accomplishments, having at various times won honors as a musician. The groom is well known in Jacksonville and has here many friends and acquaintances. He was graduated from Illinois college in 1911 and has since been engaged in teaching at Pittsfield and Bloomington High. He is a young man of pleasing address and upright character.

Among the remaining guests present from a distance were Mrs. C. S. Crosby of Sacramento, Cal.; Joseph Thompson, Miss Laura Thompson, Miss Smith, Chicago; Miss Catherine Thompson, St. Louis; Miss Mary Fonner, Delevan, Wis.; Mr. and Mrs. G. O. Bradford, Waverly; Mr. and Mrs. Charles Adams, Chicago; Richard Rowe, Miss Millie Rowe and Miss Eleanor Camps, Jacksonville.

SUCCESSORS TALKED OF TO THE LATE JUDGE SHIRLEY

Attorney W. N. Hairgrove of This City Among Those Who Would Accept Position.

Governor Dunne is being urged to appoint a successor to the late Judge Robert B. Shirley, owing to the large volume of work to be done in the circuit court at Springfield. Several cases will have to go over at any rate until the September term.

Judge Creighton will be given assistance the week commencing July 6 by Judge Norman L. Jones, who will take charge of the criminal docket. This will be the new jurist's first session in Springfield.

There are several candidates being talked of as a successor to Judge Shirley, among them Attorney W. N. Hairgrove of this city. When asked about the matter yesterday, Mr. Hairgrove stated that he was a candidate for the office and would in no manner refuse the offer. He added that he thought that aside from the men who would be aspirants for the office at the close of the term until that time there were a number of good lawyers of the district who could fill the position well.

Will Postpone Consideration.

It was decided by the mediators and delegates to postpone consideration of the exact date when American forces shall be withdrawn from Vera Cruz. This, as well as the constitution of the new provisional government in Mexico, will be postponed after the conference between the constitutionalists and Huerta delegates adjourn.

Assurances that the constitutionalists would be represented at the informal conferences came direct to the mediators, today from Luis Cabrera, one of the confidential representatives of Gen. Carranza in Washington.

At the close of the conference, Ambassador DaGama gave out a statement embracing the protocols signed tonight.

The provisional protocols signed are:

Article 1. The provisional government shall be constituted by agreement of the delegates representing the parties between which the internal struggle in Mexico is taking place.

Article 2—(a) Upon the constitution of the provisional government in the city of Mexico, the government of the United States of America will recognize immediately and therupon diplomatic relations between the two countries will be restored.

(b) The government of the United States of America will not to be an important factor in the present outlook, however. With the fall of Zacatecas, it was pointed out, Huerta's dwindling hopes absolutely would be ended. Zacatecas was regarded as the dictator's last stand.

That Zacatecas would be taken if it had not already fallen was held here to be certain. Every energy that could be asserted, physical and strategic, was being used by the attackers upon that stronghold. Ammunition is known to have been pouring in to Villa's army and military experts who are cognizant of all the facts insisted that Huerta's forces could not withstand the warlike fury that must come.

LA SALLE STREET TELLERS TAKEN BEFORE GRAND JURY

Jurymen Spend Most of Day Going Over Report of State Bank Examiner.

Chicago, June 24.—Two tellers of the defunct LaSalle Street Trust & Savings Bank, Michael H. Liston and James F. Ahern, were taken before the grand jury investigating the affairs of the bank today just before adjournment. Most of the day the jurymen had spent going over the report of Daniel V. Harkin, state bank examiner, who took charge of the bank after closing its doors.

Special agents working under the direction of James H. Wilkerson, United States attorney, began a federal investigation of the books and records in the bank's vaults.

The United States marshal was instructed to summon a federal grand jury to report tomorrow and it was said that the federal examiners after an all night session with the bank's records will be able to present their report to the grand jury in the morning.

William R. Forsberg, partner of Joseph Ashurst in the defunct Midway Commercial and Savings Bank and the Brookline Commercial and Savings Bank, waived examination when arraigned before United States commissioner on a charge of using the mails to defraud. A warrant has been issued for Ashurst but he has not yet been apprehended.

The records of the LaSalle Street National Bank as the institution was known before it organized under the state laws in 1912, were transferred to the district attorney's office.

"We are concerned solely with what occurred in the bank while it was a national institution," said Mr. Wilkerson. "Accusations which have been made against officers of the bank will be sifted to the bottom."

Villa Captures Zacatecas.

El Paso, Tex., June 24.—Zacatecas was captured last night by Villa's forces, according to announcement today by Col. Ornelas, military commander of the Juarez garrison.

The loss to Villa's troops was reported at Juarez as having been 2,200 killed and wounded. The federal loss was not given. Two of Villa's generals, Trinidad Rodriguez and MacClevo Herrera, were reported wounded, while General Toribio, according to an unconfirmed rumor, was placed among the dead. The telegraph was working badly and no press dispatches had arrived up to a late hour. The city fell, according to the official report, at 6 p. m. Tuesday.

It was believed here that Villa's lack of effective artillery ammunition had made it necessary to rush the federal positions with infantry, taking the city by a sudden attack which, according to the official reports, resulted in the capture of a large portion of the garrison and its mutinies.

The border city of Juarez at once plucked itself into a celebration. The municipal band played in the plaza and troops paraded in the streets.

The telegram telling the news was received by Col. Ornelas and by Zarzo de la Garza, Villa's agent here. It was signed by General Orestes Pereyra, commander at Torreon, who did not give the source of his information.

The results of the mediators work tonight places the issue now squarely before the representatives of the two warring factions. On them will rest the responsibility for failure or success of the peace plans as a whole.

SENATE NO NEARER CONCLUSION ON BILL

JUDICIARY COMMITTEE IS BADLY DIVIDED ON CLAYTON MEASURE

Senator Cummins Offers Five Propo-
sitions Which He Asks Committee to
Approve and Report as Amend-
ments to Federal Trade Commis-
sion Measure.

WEDNESDAY IN CONGRESS.

Senate.

Met at noon.

Debate was continued on Indian appropriation bill.

Virginia tobacco growers asked the joint congressional committee to devise some means to relieve them on low prices.

Senator Works introduced bill abolishing tipping on inter-state carriers and to make a dry district of the national capital.

Passed Indian appropriation bill carrying about \$12,000,000.

Adjourned at 5:45 p. m. to noon Thursday.

House.

Met at noon. The corrupt campaign practices act was debated.

Agreed upon recess over July 4th.

Adjourned at 7:38 p. m. until noon Thursday.

WASHINGTON, June 24.—After ten days consideration of the Clayton anti-trust bill passed by the house the senate judiciary committee tonight was apparently no nearer a conclusion as to what it shall report to the senate than it was the day it took its first look at the measure.

The committee is badly divided on many of the subjects in the bill.

A new complication in the situation came tonight when Senator Cummins offered five propositions which he asked the judiciary committee to approve and report as amendments to the federal trade commission bill now before the senate.

These amendments would make interlocking directorates and holding companies among railroads or other corporations unlawful where they restrained commerce and would give the trade commission or the inter-state commerce commission power to determine when they did restrain commerce. Democrats on the committee were inclined to believe these amendments would not be accepted but Senator Cummins may decide to press them on the senate floor.

Colonel Roosevelt gave out a letter from Dr. Hamilton Rice, the explorer in which he said, he was mistaken when he questioned the discovery of the "River of Doubt."

WASHED AIR TO BE USED IN HIGH SCHOOL BUILDING

Decatur School Board is Considering Plan of Removing Impurities at Intake Pipe.

The Decatur High school building will be fitted out with a new system of washing the air used in ventilating the building, if such an installation can be put in without too great a cost.

The new system, it is said, cleans the air taken into the building from the intake, of all impurities. A suction pump draws the air through a sheet of water into the fan room. Pipes are so placed that their spray forms a solid sheet of water. It is said that soot and other particles drawn or washed from the air sometimes causes the water drained from this spray to be almost inky black. It is estimated that the washing system will cost about one thousand dollars.

NOTICE TO CONTRACTORS.

Bids will be received by the commissioners of road district No. 3, Morgan county, Illinois, for the construction of a reinforced concrete culvert said culvert to be located within three-fourths of a mile of the village of Concord, at the Farmers' and Merchants' bank at the hour of two p.m. of June 30, A. D., 1914, at which time and place bids will be publicly opened and announced. The commissioners reserve the right to reject any or all bids. Plans and specifications may be seen at the office of the county superintendent of highways in the city hall building, Jacksonville, Illinois.

All bids must be accompanied by a certified check in the sum of ten (10) per cent of the amount of the total bid.

SAEGERFEST IN LOUISVILLE.
Louisville, Ky., June 24.—Never have the citizens of Louisville made more elaborate preparations for the entertainment of a national gathering than those completed today for the entertainment of the 34th national saengerfest of the North American Saengerbund, which is to hold forth here during the remainder of this week.

The delegates who arrived by the hundreds today found the city magnificently decorated in their honor. Public and private buildings, stores and residences are decorated with the American and German colors. The central feature of the decorative scheme is a court of honor in Jefferson street, between Fifth and Sixth streets. The court is lined with high columns which are studded with electric lights and surrounded by golden lyres. Between the columns and running parallel with the street are electric festoons draped with bunting. The Armory, where the concerts are to be given, is profusely decorated both inside and out with flags, bunting, and electric lights.

The Saengerbund includes two hundred societies with eight thousand members. Among the cities represented by the delegations already here are Chicago, New Orleans, Memphis, Birmingham, Milwaukee, St. Louis, Cincinnati, Detroit, Cleveland, Buffalo, Pittsburgh, Mobile and numerous smaller cities of Pennsylvania, Ohio, Indiana, and Illinois. Charles G. Schmidt of Cincinnati is the president of the band.

WARRANTS READY.
All warrants allowed by the County Board this week are now ready.

SONS OF REVOLUTION

Trenton, N. J., June 24.—The Sons of Revolution who are making a pilgrimage from Philadelphia to Boston in commemoration of the 139th anniversary of the journey made by Washington when he assumed command of the continental army, concluded the first stage of their journey with the arrival in Trenton today. The members of the party were welcomed at the state house by Governor Fielder and other officials.

NEW CARDINAL

Quebec, June 24.—The proceedings in honor of the return of Cardinal Begin were resumed this morning with the celebration of solemn mass in the Basilica. The mass was celebrated by his eminence in the presence of a large gathering of the clergy and representative of the religious communities. The new cardinal was presented with an address by the clergy and later was entertained at luncheon at the seminary.

LARGE FENCE SHIPMENT.

A carload of American wire fence purchased last week by Arthur Masters of George S. Gay, made probably one of the largest shipments ever made here. The fence was shipped direct from the factory to Murrayville for Mr. Masters' farms and consisted of 43,200 pounds of No. 9, 2,000 pounds of barbed wire fence and 106 steel posts.

GRIGGSVILLE GOOD ROADS EVENT OF UNUSUAL ENTHUSIASM

Boosters for Hannibal-Springfield Highway as Part of "Ocean to Ocean" Route Come in 250 Automobiles—Gov. Dunne's Address.

With two-hundred and fifty automobiles full of good roads boosters from all points between Hannibal and Springfield, the "Ocean to Ocean" meeting Wednesday at Griggsville was a decided success. Governor Dunne made the address of the day, touching upon the Tie law, state aid in general, convict labor for road building and the rank of Illinois in highway construction. Speeches were made by C. L. Adams of Chillicothe, George Mahon of Hannibal and Harry Higbee of Pittsfield. J. B. Daibney of Griggsville, pastor of the Christian church, acted as chairman. The meeting was held in the fair grounds and followed an excellent dinner served by the ladies of the M. E. church. The party arrived in Griggsville at 10:30 and proceeded first to the rooms of the Booster club. There was a good turn-out of Pike county people and the event was marked with enthusiasm for the success of the Hannibal-Springfield highway.

There were 200 Illinois cars present and 50 from Missouri. Six autoists from Chapin joined the procession. Among those who drove machines from Jacksonville were: David Estaque, T. M. Tomlinson, Thomas Harber, L. F. O'Donnell, C. N. Priest, A. C. Rice, Dr. W. B. Young and H. P. Joy. The rest of the party included Messrs. Brown, Taylor, White Hopkins, R. A. Gates, Thomas Worthington, O. S. Carr, J. J. Reeve, W. S. Ehnie, Harold Gay, Henry Frisch, Roy Sorrells, G. A. Sieber, E. J. Howells, Mr. Patterton, Louis Deutsch, Paul B. Fritchey, Walter and H. J. Rice, T. H. Pratt and George Holley.

C. L. Adams of Chillicothe, Mo., the president of the Ocean to Ocean Highway association, was the first speaker. Between Hannibal and St. Joseph, he said, the project had met with a reception very favorable. In the east also the work for the highway has been pushed.

Gov. Dunne's Address.

Gov. Dunne deplored the lack of public interest in good roads. Illinois stands third in commercial importance among the states of the union and third with regard the value of her products. Her farm lands are worth ninety dollars per acre, with an average for the whole country of thirty dollars. Illinois, in many respects, the best state in the union, in the matter of road development ranks twenty-third. For one-third of the time farmers cannot bring in their products and visit their city. This question of good roads is primarily a farmers' question.

The danger of insanity, which threatens the wife of the farmer in his isolation, will be dispelled when good roads come.

All good roads agitators are not in the Democratic party, said Gov. Dunne. He cited Mr. Tie as among the best friends of the movement and explained briefly the Tie road law.

The governor said he had recently seen a new wrinkle in road making while traveling in Pike county. Officials there had seen fit to make use of straw, succeeding better in their efforts for securing good roads, said he, than many of the road men of Springfield and Jacksonville.

Convicts as Road-Makers.

The theory of our prison system is for the most part wrong, said the governor. We still punish a man with the idea of vengeance, sending him forth at the end of his term a branded criminal, hardened and bitter. By placing him on his honor and allowing him to do something for the public good, we benefit him and the state as well. "I hope we may soon have over one-half of our criminals at work on the roads, that we may be fitting them to start life anew and not as branded felons."

Gov. Dunne stated that he had sent an investigator to some of the western states where convicts were employed for road-making and had gone into the matter thoroughly.

In the past three years the state of Illinois has appropriated some \$1,300,000 for road improvement purposes and that of this sum \$800,000 have come from auto licenses. "I have met with more evidences of good work on this highway between Griggsville and Jacksonville than in any other portion of the state," said the governor. He continued with expressions of appreciation for the work which has been done and uttered a hope for the full success of the Ocean to Ocean Highway project as it is concerned with road improvement in Illinois.

George Mahon, a lawyer of Hannibal, was the next to speak. He extended the compliments of his home city and sung the praises of Pike county, commenting further on the good roads movement as a farmers' project. Harry Highby of Pittsfield, judge of the court of appeals, was among the speakers.

The party was piloted over the road to Griggsville by David Estaque.

GOOD FISHING AT NICHOLS PARK

Some exceptionally good catches are reported as having been made at Nichols park since last Saturday, by several who are known not to be in the habit of telling "fish stories". Two-pound bass and crappie seem to be no uncommon catch for those not skilled in the art of capturing the finny tribe. From all reports, however, the ones who have been most fortunate appear to be a crowd of boys who are spending most of their vacation along the bank with bamboo poles. Several of these have caught as high as ten or twelve and three pound fish in a morning.

The fishing season at Nichols park has been well regulated in past years so that now Jacksonville is extremely fortunate in having a goodly supply at home for those who care for this summer sport.

CRICKETS IN LARGE NUMBERS HAVE INFECTED THE CITY

Thousands of the insects have infested the gardens, dwellings and store rooms.—Have destroyed vegetation in some quarters.

It has been many a day since Jacksonville was visited by so large a number of crickets as is the case at the present time. Thousands of the insects are visiting the flower beds, gardens, swarming about electric lights, infesting barns and outhouses and have literally entered in the dwellings and business houses of the city. For over a week the crickets have been here having come as it were almost in a night.

The insects, when they enter the homes, are even more destructive than out of doors. They have a fondness for getting within woolen clothing, and their sharp mandibles make greater havoc on clothing than the ravages of moths. Many a suit has been taken from a closet to be found devoured by the crickets.

While there are a large number of the insects throughout Morgan county to the west along the Mississippi river they seem to be in larger numbers and in a great many instances have done considerable damage to gardens and other vegetation. No one seems to be able to account for their large number, except it be that the long dry spell was advantageous to their productiveness.

CITY CHARITY WORK IS REPORTED BY SUPERINTENDENT

Miss Emma Weller of the Associated Charities Tells of Labors of Past Five Months.

Miss Emma Weller, superintendent of the Associated Charities, has made the following report to the board of directors of work accomplished in the past five months:

"My records show that there have been 254 applications of various kinds made and 242 visits have been made for investigation and alleviation. Some of these cases have been easily adjusted and some of them have been long drawn out. Some of the latter have been so because they were women with small children who were unable to obtain suitable home work."

"In two of these cases I endeavored to procure the mother's pension. In one case the pension was refused because the mother could not prove that her husband is dead, although she had heard nothing from him for over three years and believes him to be dead. In such a case the law requires that the husband shall have absented himself for seven years. This woman has five children."

"In the other case the woman also has five children. When I made application the mother was in the hospital sick—the sickness aggravated by hard work. In making out the papers for it I transcribed that she had received a small insurance at the death of her husband, which fact debars her from the benefit of the pension act until she has spent her insurance money."

Seeks Mother Pension.

"I am now interested in obtaining a mother's pension for a bona fide widow with three children, this time one without a dependent husband and without money, and I hope the application will carry."

"In the last five months I have had apply at the office more than the usual number of tramps. Many of them had on clothes that were worn threadbare and I have been better able to remedy this condition because this year generous donations of men's clothing have been received."

"An especially pitiful case was of a man desperately miserable with a diseased foot. I fed him, gave him some clothing, took him to the overseer and got railroad transportation for him to Quincy, where he had one operation on his foot and where he wanted to go and have his foot cut off. Another man was lame, deaf and dumb and was sent to me by the Elliott State bank."

Applicants for Help.

"I have had many worthy applicants and many unworthy ones. In all cases I endeavored to give adequate investigation and have given assistance materially and morally whenever it was necessary. I got work when needed wherever I could find it. But the work problem is a difficult one at all times, and I need almost as much help in this line as I do in the way of finances."

The Thanksgiving donations to the Associated Charities by the schools were a great help materially and financially and enabled me to give out some kind of groceries for several weeks after Thanksgiving day.

"I have gotten the county commissioners to pay the rent monthly for two widows with children, have had defective eyes examined and glasses furnished in two cases. I have been called upon to accompany three women to the state hospital, as the law requires a woman to be present in such cases."

"I have been asked to investigate five cases for different parties living out of town, one request coming from Missouri and one from California.

Cases Reported.

"In the city matron's work there have been seventeen boys and eight girls reported to me and one case of cruelty to animals. These reports have all been investigated and remedied as far as I have been able to do so."

"The problem of these cases is not an easy one to solve. I have found homes for three girls and have placed one illegitimate baby in the soldiers' orphans' home. The mother was sent to the State Hospital for the Insane."

"With some difficulty I secured two good homes at different times for one innocent enough looking boy but for some unknown reason he was not able to keep them."

"Without going into any explanation of the foregoing cases, these are just a few that have presented themselves at our office during the last five months."

"The money receipts for this year have been: Membership dues, \$284.21; donations, \$20.29; total, \$304.41. Expenditures: General fixed expense, \$172.95; groceries, shoes, etc., \$127.83; total, \$310.78."

"Indebtedness to June 1, 1914, approximately \$90."

HAS OLD CURRENCY.

Ralph Sibley, of West Morton avenue, has a unique piece of currency which was printed in Colonial days, good for two-thirds of a dollar. The bill was printed by Hall & Sellers in Philadelphia in 1776 and one side bears the denomination of the note and a paragraph to the effect that it was issued according to a resolution passed by Congress at Philadelphia, Feb. 12, 1776. The reverse smaller interlocked circles, each bearing the name of one of the original thirteen colonies. Mr. Sibley also has a blank three dollar note which was printed before the Civil War.

GUESTS AT PICNIC LUNCHEON.

Henry Frisch, G. A. Sieber, J. O. Priest and E. J. Howell were among the automobileists to Griggsville yesterday, the trip being made in Mr. Priest's Ford automobile. While there the party were guests at a splendid luncheon given by William Stone and Fred Stone, merchants of Griggsville.

MRS. MARTHA CAREY DIES AT HER HOME IN WINCHESTER

Aged Lady Expires After Three Paralytic Strokes—Funeral Today—Other Winchester News.

Mrs. Martha Carey, aged 78 years, 4 months and 7 days, passed away at her home in Winchester Tuesday night at 8:20 o'clock after a short illness. Mrs. Carey suffered a paralytic stroke Monday night and a second one Tuesday morning. The third one came a short time before death relieved her of her suffering and she never regained consciousness.

Mrs. Carey's maiden name was Martha Hester and she was the wife of Paul Carey, who together with three sons, Paul, William and Curtis, survive her. She had been a resident of Winchester for a number of years and was a woman beloved by a wide circle of friends.

Funeral services will be held at the late residence this afternoon at 2 o'clock in charge of Rev. D. W. Murray. Interment will be made in the Winchester cemetery.

WATER NOW BEING PUMPED FROM WIDENHAM-DAUB WELLS

Work of Installing New Water Tube Boiler Completed and Pumping Started Last Night.—Commissioner Brennan Pleased With Initial Efforts.

The work of installing the new water tube boiler at the Widenham and Daub wells was finished Wednesday and at 7 p. m. the steam pumping station at the south end was closed down and pumping at the Widenham and Daub wells started. Commissioner Brennan remained at the Widenham and Daub wells until early this morning to see that everything went well and William Cathewood was at the city plant.

The work of installing the water tube boiler has been in progress for the past two months. It is the plan to use water from either of the five wells and the new Fairbanks-Morse centrifugal pump at the north end, with its capacity of one million gallons per day, will be used. This pump will be kept continuously at work and in case anything should happen to it, the other pump with a capacity of two million gallons per day can be used, and both alternately as seen fit. One of the three engines will always be in use.

The city is now using about 800,000 per day but it is thought that after the new water gets into the mains, the consumption will go easily to the million gallon mark. Perhaps two days will pass before every trace of the water from Morgan lake disappears. Operations at Morgan lake closed at 11 o'clock Tuesday night.

Commissioner Brennan expressed himself well pleased with the way everything started off last night, and stated that the machinery worked perfectly and there was not a hitch anywhere. Water is now being pumped directly into the mains and either today or tomorrow water will be pumped into the stand pipe.

REV. FATHER MAGUIRE OF FRANKLIN OBSERVES HIS SILVER JUBILEE

Banquet Held by Catholic Congregation in Parish Hall in Honor of Priest.

Rev. Father William J. Maguire, pastor of the Catholic church at Franklin, celebrated the twenty-fifth anniversary of his ordination Wednesday evening. A banquet was held in the parish hall in honor of the occasion and was attended by a large number of the members of the congregation. This part of the program was in charge of the ladies of the congregation and they served an excellent menu which was thoroughly enjoyed and was deserving of much praise for the successful manner in which they carried the entertainment to a close.

Very Rev. J. W. Crowe of this city acted as toastmaster for the occasion and spoke of Father Maguire's twenty-five years in the ministry, of the labors and sacrifices of a good priest and of the tender, loving bond of sympathy that exists between pastor and people, which nothing can destroy. Rev. F. F. Formaz of this city was called on and responded eloquently, telling of what great work the congregation had done under the leadership of Father Maguire. Rev. Father Lucius of Alexander, who was introduced as the pastor of a congregation that is the eldest daughter of Franklin parish, spoke very feelingly of the relations of the two parishes and show the virtues of the other parish were seen in the daughter, all of which reflect praise upon the good work of the priest and people of Franklin. Dennis Whalen and James Kinney spoke of the people, congratulated the pastor and concluded by wishing him many more years. Carl Bergschneider closed the program by presenting a purse on behalf of those present, to Father Maguire.

Rev. William J. Maguire was born in Brownsville, Pa., and was reared in Philadelphia. He was educated in Niagara Falls and was ordained at the seminary at Allegheny, N. Y., and since coming to Franklin has done a vast amount of good and endeared himself to the people of that community. During his twenty-five years as a priest Father Maguire has held pastorates at Quincy, Dalton City, Ashland and Decatur.

The old way of selling bread

The old way of selling bread was to take it from the oven and pile it into dirty boxes; it then was put into dirty baskets by persons whose hands often were soiled, carried to a dirty wagon, hauled through dirty streets; again those soiled hands put the bread into the same dirty basket, and more than likely left it where it was exposed to more dirt, to flies, and where anyone who felt like it could handle, squeeze to see if fresh, and possibly drop it on the floor; then, after the bread had passed through all of these experiences, it finally arrived at your table and was eaten.

GOV. DUNNE MAKES PROMISE TO LOCAL ROAD ASSOCIATION

Says That Organization Can Count on Him Being Here Next February or March For Big Road Meeting.

To a committee consisting of Arthur L. French, John W. Cleary and Hon. Thomas Worthington, Governor Dunne gave his promise Wednesday that the Association of Road Commissioners of Morgan county could count on him for an address at their meeting next year either in February or March. Governor Dunne has taken an unusual interest in the good roads movement in Illinois and the promise of his presence at the big meeting to come will give the gathering no little impetus. The local committee expects to have at least half a thousand at the banquet.

NEW MASONIC LODGE
A petition has been sent by the Masons of Decatur to the high officials to secure a charter for a new lodge. There are already two lodges in Decatur but the membership is so great that it is thought best to organize a third lodge. 100 names from the two lodges have been signed to the petition.

How I Produced 12 Pounds of Beef From One Bushel of Corn.

I bought 44 cattle through Milton Marshall & Co., St. Louis, of Henry Wright, they averaged 961 pounds, March 19, 1914 in St. Louis. I put them in dry lots March 27th, fed them all they would clean up in 30 minutes, crushed corn, cob and all then cooked in the 50 bushel size Wood's Grain Softener.

I put them on grass May 25th, they averaged 1200 lbs. when put on grass. While in dry lot I gave each steer 5 lbs. clover hay. After they ate their grain, I kept oat straw before them all the time, but they would not eat over one bale of straw per day. I fed at 6 a. m. and 6 p. m., at regular hours.

I measured the grain fed with a No. 8 scoop, feeding 50 scoops at each feed or 100 scoops per day, all they would clean up. I put in 20 bushels ground cob corn and all into a 50 bushel vat. This will fill it making 50 bushels feed, which makes 4 feeds, all they will clean up. I drew 50 gallons of syrup off and added 50 gallons of water, then added 1 1/2 bushels of ground oats and shorts, with which I am feeding 80 pigs that are doing well.

I will feed the cattle about 30 days longer and would be glad to have any one interested come and see them.

THOUGHT SHE COULD NOT LIVE

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Unionville, Mo.—"I suffered from a female trouble and I got so weak that I could hardly walk across the floor without holding on to something. I had nervous spells and my fingers would cramp and my face would draw, and I could not speak, nor sleep to do any good, had no appetite, and everyone thought I would not live.

Some one advised me to take Lydia E. Pinkham's Vegetable Compound. I had taken so much medicine and my doctor said he could do me no good so I told my husband he might get me a bottle and I would try it. By the time I had taken it I felt better. I continued its use, and now I am well and strong.

"I have always recommended your medicine ever since I was so wonderfully benefitted by it and I hope this letter will be the means of saving some other poor woman from suffering."

Mrs. MARTHA SEAVEY, Box 1144, Unionville, Missouri.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Purifies Blood With Telling Effect

Gives Conscious Evidence of Its Direct Action.

S. S. S., the famous blood purifier, almost talks as it sweeps its way through the circulation. Its action is so direct that very often in some forms of skin affliction the appearance of the eruptions changes over night, the itch and redness are gone and recovery begins immediately.

As a matter of fact, there is one ingredient in S. S. S. which gives the active principle of stimulating each cellular particle in the body to the healthy and judicious selection of its own essential nutriment. That is why it regenerates the blood supply; while it has such a tremendous influence in overcoming eczema, rash, pimples, and all skin afflictions.

And in regenerating the tissues S. S. S. has a rapid and positive antidiotal effect upon all irritants, whether they cause rheumatism, neuralgia, weak eyes, loss of weight, thin, pale cheeks, and that weariness of muscle and nerve that is generally experienced as spring fever. Get a bottle of S. S. S. at any drug store, and in a few days you will not only feel bright and energetic, but you will be the picture of new life. S. S. S. is prepared only in the laboratory of The Swift Specific Co., 534 Swift Building, Lynn, Mass., who maintain a very efficient Medical Department where all who have any blood disorder of a stubborn nature may write freely for advice and a special book of instruction. S. S. S. is sold everywhere by drug stores, department and general stores, but beware of all substitutes. Do not accept them.

DECLARAS PATMONT WAS KIDNAPED BY ST. LOUISANS

STATE NEWS IN BRIEF

Rev. John D. Brandt States That Dry Leader Was Kidnapped Second Time Just as the Men Were About to Be Arrested.

St. Louis, Mo., June 23.—"Louis R. Patmont, the Illinois dry leader, was kidnapped the first time by St. Louisans and was kidnapped a second time eight days ago just as the men suspected of kidnapping him the first time were about to be arrested in St. Louis."

Such was the opening statement of an interview given here today by Rev. John D. Brandt, pastor of the First Christian church and intimate friend of the missing prohibition advocate. When Patmont was found near Columbia, Ill., two weeks ago after several months' mysterious absence, Brandt made a hurried automobile trip to Columbia, brought Patmont to St. Louis and entertained him for a day.

Mr. Brandt declared a letter written by St. Louisans to Patmont and mailed June 12, three days before the minister's second disappearance, was intercepted by agents of the St. Louis abductors.

This letter, which Mr. Patmont never received, contained confidential information concerning the impending arrest of the kidnappers and urged Patmont to hasten to St. Louis to identify his abductors, who then had been rounded up for arrest by private detectives, Rev. Mr. Brandt said.

"Communications from Patmont and his friends before this second disappearance," the local pastor continued, "showed that representatives of the kidnappers approached Patmont and demanded signed statements clearing them of suspicion.

"A brewery agent told Mr. Patmont shortly before his second disappearance," Rev. Mr. Brandt said, "he would suffer additional trouble unless he absolved certain men from blame in connection with the first kidnapping."

The arrests planned in St. Louis were not made after Patmont disappeared a second time because without him here to identify the abductors our efforts to prosecute the men would have been useless."

IN MEMORIAM.

In loving remembrance of Irvin Ingram, Jr., son of Mr. and Mrs. Irvin Ingram, of Los Angeles, Calif., who passed away June 23, 1913:

The little bed is empty now.
The little clothes laid by.
A mother's hope, father's joy.
In death's cold arms doth lie.
Go little pilgrim to thy home
On yonder blissful shore;

We miss thee here but soon will come
Where thou hast gone before.

We had a little treasure once,
He was our joy and pride;
We loved him, Ah perhaps too well.
For soon he slept and died.
All is dark within our dwelling,
Lonely are our hearts today,
For the one we loved so dearly
Has forever passed away.

Those little lips so sweet to kiss
Are closed forever now;
Those sparkling eyes that shone so bright

Beneath that pearly brow;
That little heart that beat so high,
Free from all care and gloom
Are hidden now from those he loved
Beneath the silent tomb.

Dear little hands I miss thee all through the day,
Wherever I go all through the night how lonely it seems.

For no little hands wake me out of my dreams.
I miss them all through the weary hours,
I miss them as others do sunshine and flowers,
Daytime or nighttime, wherever I go,
Dear little hands, I miss thee so.

ATHENS COAL MINERS WILL BE HERE SUNDAY.

Manager DeShara of the Eagles base ball club, booked yesterday the fast Athens club. The "Miners" are classed with the Divernon club. They have always had the reputation of having one of the fastest clubs in this section, having this season defeated the well known clubs of Ashland and Petersburg.

The Broad View

By WALT MASON.

No doubt the girls deserve the rights for which they clamor, days and nights, and men should patient be and fair; I love the women passing well, but when they raise their "rebel yell" I'm glad my gran- isn't there. The women ought to have a hand in governing this happy land—they have that right, and more to spare; this cheerfully I grant each maid—but when I see a suff parade, I'm glad Aunt Agnes isn't there. The dames who help to bear the yoke, should have the right to chew and smoke and play cheap politics and swear; but when the wives neglect the homes, and chase around with batty domes, I'm glad my grand-niece isn't there. I'd like to see the women gain all blessings that they would obtain, and all imagined laurels wear; but when I think of politics, with all its cheap and sordid tricks, I'm glad my sister isn't there. Let others' sisters, aunts and wives go forth and sacrifice their lives, and resolute and paw the air; their sacred cause is all O. K., but I am thankful, every day that Cousin Susan isn't there.

I am having great success with my New Neuropathic System of Treating Diseases in the treatment of Chronic Rheumatism, Uric Acid Conditions, Kidney and Bladder Troubles, Palpitation, Shortness of Breath, Stomach and Liver Trouble, Constipation, Blood and Nervous Diseases, Catarrh, Deafness, Eye troubles and every curable Chronic Disease or Weakness.

I am giving my services FREE this trip to all sufferers to demonstrate my new treatment. I want to treat as many people as possible in Jacksonville this trip.

I will remain at the Hotel Dunlap until 8 p.m. Friday, June 26.

Call at my rooms between 9 and 12; 1 and 5; and 7 and 8.

FIRST AID FOR SUN VICTIMS

State Board of Health Tells What To Do for Sunstroke Until the Doctor Comes—Also Gives Advice On How To Avoid It.

Springfield, June 24.—The first of a series of "Timely Health Talks," prepared in accordance with the wishes of Governor Dunn for the purpose of enlightening the people in matters pertaining to the public health, was handed out by the secretary of the state board of health today. The timeliness of the information and advice set forth in the first of the series of talks is at once apparent.

Sunstrokes and heat prostrations have been of such general occurrence in all parts of the state during the last two weeks as to indicate the necessity of giving the people some instruction in the first aid care of such cases and, what is much more important, of giving them advice in the form of a few simple rules of right living which, if followed, will reduce the incidence of cases of heat stroke to the minimum. Police officers, especially, should be able to differentiate heat strokes from other affections.

There are two forms of heat stroke, (a) heat prostration or exhaustion and (b) sunstroke or insulation. The two forms differ somewhat in symptoms presented and in a measure call for different treatment. In either type of case, however, the services of a doctor should be secured as soon as possible. Pending the doctor's arrival the patient should be given prompt and intelligent attention.

Heat Prostration.

Heat prostration is a mild form of heatstroke and while it frequently occurs outdoors it not uncommonly comes on indoors, especially among those employed in places of excessive heat. It manifests itself by sudden and marked exhaustion accompanied by a pale, cold or clammy condition of the skin and a feeble pulse.

The treatment of heat prostration calls for the immediate removal of the patient to a shaded place, as cool and airy as possible. Loosen all tight clothing and apply cold water liberally to the chest and head. Sprays of ammonia (hartshorn) may be held to the nostrils and, not infrequently, it may be found necessary to give small quantities of stimulants, in which event black coffee or brandy or diluted spirits of ammonia may be used. Rest is essential.

Sunstroke.

Sunstroke is the more serious form of heatstroke and is highly fatal. It occurs more commonly outdoors among those whose work exposes them to a hot sun. Users of alcohol and those addicted to other excesses, such as overeating, are particularly liable to attack.

In cases of sunstroke the face becomes purplish, the eyes bloodshot, veins swollen and corded, skin dry and burning to the touch, the body temperature often reaching 110 degrees or over.

Treatment of sunstroke, until the doctor arrives, should be as follows: Remove patient to cool dry place, loosen all tight clothing, taking off upper outer garment. Apply cracked ice in cloths or rubber bags to the head and along spinal column. If the ice is not available immerse the patient in cold water. Crowding about the patient should not be permitted, air and quiet are demanded.

To Avoid Heatstroke.

Exposure of the head or spine to the direct rays of the sun should be guarded against. Those who must work under a hot sun should wear a padding of cotton or strip of flannel along the spinal column. The hat should be light and ventilated.

Chicago, June 24.—Chicago broke Coeleskie's record of nineless innings today and incidentally defeated Detroit by 5 to 2. Coeleskie had pitched thirty two and two-thirds innings for Detroit without a run being charged against him but after one out in Chicago's third inning his opponent on the mound, Eddie Cicotte, scored the first run, thereby stopping Coeleskie at his thirty fifth inning. FRANKLIN BASEBALL PLAYER RETURNS FROM CHICAGO.

His Workout Satisfactory to Com-
iskey and Callahan—Will Be
Given His Choice of Farm at Du-
buque or Kansas City.

Big Jim Lonergan, who went to Chicago Saturday to undergo the third degree in a tryout with the White Sox has returned. Those of his friends who have had the pleasure of meeting the Franklin youngster since his return say his heart is bubbling over with joy. Jim has made good, and the hatchet men can now crawl into their caves.

Lonergan is "green" in the fine points of the game; but he was put through a severe test, and those pastmasters at the White Sox helm have discovered that Jim has the goods.

Comiskey has given Lonergan the option of going to two baseball farms with a good strong White Sox string attached. Jim is yet undecided and will not arrive at a conclusion until he has consulted some of his friends. The farms Comiskey selected are Dubuque in the Three-Eyes or Kansas City in the American association. The Journal congratulates you, Jim.

GIFTS TO CHINA SCHOOL ARE HIGHLY APPRECIATED

Mr. Nichols Receives Letter From Long Ming Sing, Secretary of Boys School Which He Visited Last Summer.

While Mr. Nichols was in China last year he spent several weeks at Foochow with Rev. Leonard Christian, foreign pastor of the Jacksonville Congregational church. Mr. Christian escorted a party up the Inghok river to the city of Inghok, where is stationed Rev. E. H. Smith. He is carrying on a wonderful work with a large school of young men and another of young women with Miss Chittenden as teacher of the latter. Mr. Nichols spoke a number of times to these schools on travels, religion and various topics and gave the financial help. When leaving he was escorted to the boat landing by boys with fire crackers. He wrote them a letter with friendly advice and greetings, sending them a money present for Christmas. This was used to send two delegates to a students' conference at Foochow.

The following letter just received by Mr. Nichols is in reply:

Fukien, China, May 22, 1914.

Teacher Nichols—Great man—Peace to you.

Be patient and kindly accept this poor effusion. Since you left us all so long ago we never forgot you.

Even though vast ranges of mountains and island seas separate us so that "neither wind, horses or cattle can bring us together" nor can we take wings and fly to greet you. We are much distressed therefore. "Every day that we do not see you is like three years." But we forget not your instruction.

Submitted your good letter and we all delighted to hear all your experiences in Russia—this added to our joy—to hear of the old version of the Bible increased our faith in the Lord. We recalled your words that we must be as lights in China and as the iron in the body of the nation. So we must have the qualities and usefulness of iron. Cease not to pray the iron shall not become cold and hard.

Moreover, we received the ten dollars you sent the school at Christmas time. It was used by the Y. M. C. A. to send five delegates to the Student Bible Conference at Foochow. How can we sufficiently thank you?

Alas, mountains and water separate us and we can not receive your instructions. However, as by fish and carrier pigeon we send you our letter.

Words fail to express all we would say. All can we send you our heartiest greetings. In behalf of the students of the Inghok Boys' School.

Long Ming Sing,
Secretary.

REGARDING EGGS SELLING.

Considerable complaint has been made on the part of local egg buyers that farmers are selling them rotten and spot eggs. Some of these eggs reach the market possibly as the result of unintelligence but what appears more probable is the fact that they are carelessly gathered and handled.

Under the Illinois Food and Dairy Law the sale of spoiled eggs is punishable by a fine of not less than fifteen dollars nor more than one hundred, or by imprisonment not exceeding thirty days for the first offense. For the second and each subsequent offense, not less than twenty-five dollars nor more than two hundred, or imprisonment not exceeding one year.

The following recommendations to farmers for placing fresh eggs upon the market is a portion from a bulletin of the Illinois State Food Commission, under date of April, 1914.

Produce only infertile eggs for market as they do not spoil so quickly as fertile ones.

Dispose of the roosters as soon as eggs needed for hatching are obtained. The eggs keep better and the hens will lay just as many of them.

Provide plenty of clean nests with clean straw in them.

Gather eggs twice daily in hot weather and store them in a cool, sweet, well-ventilated place but do not store where damp.

Do not wash eggs.

Market eggs as often as possible and carry them gently.

Do not sell eggs from stolen nests. Use them at home.

Protect eggs from the sun when taking them to market. Eggs exposed to hot sunshine for one hour will spoil; this applies to infertile as well as fertile eggs.

Candle your eggs and insist upon having them candied by the purchaser so that he may know that he is buying good eggs and pay accordingly. You will thus reap the advantage for the care you have given them.

AN OLD TIME HAND BILL.

Almost fifty years ago a quack doctor, W. B. Forden, used to visit this place, selling his topical anodyne, "King of Pain." The man had long hair and used to have a box on the north side of the square and talk to the crowds at times, and then announce any aches or pain cured free on the street. In looking over some effects in the shop formerly owned by E. Keemer on South Main street, an old bill was found setting forth the wonders of "Dr." Forden and his medicine, of which he said 10,000 bottles had been sold in two months and sales were still increasing. The laboratory of the King of Pain was located in Peoria.

Why Suffer From Rheumatism?

When relief from rheumatic pains may be had at so small a cost it is surprising that anyone should fail to avail himself of it. Joseph Capparelli, Canastota, N. Y., suffered intensely with pains due to rheumatism in his limbs for a long time. A friend told him about Chamberlain's Liniment. One application relieved him wonderfully, and a few days' treatment effected a cure. Many others have found quick relief by applying this liniment. For sale by all druggists.—adv.

WM. BURKERY HELD FOR MURDER IN KANSAS CITY

JACKSONVILLE MAN KILLS IN ROW OVER WOMAN.

Jealous, a Fellow Boarder Attempts to Assault Him, Making a Threatening Move to Draw a Weapon—One Version of Shooting is That Burkery Shot in Self Defense, Another Reports Differently.

Kansas City, Mo., June 24.—(Special)—William Burkery, a bartender, 32 years old, is in the county jail here awaiting trial for the killing of Delbert Grabhorn early on the morning of June 12. Burkery found Grabhorn visiting at the former's rooming house and shot him. Grabhorn ran from the house and died in the street.

The shooting followed a wine party in which Mrs. Rose Smith, the keeper of the rooming house; Mrs. Elizabeth Megredy, a friend of Mrs. Smith, and two men, Grabhorn and Roscoe Mills, a barber, had taken part.

The party took place in Smith's home. Burkery found them about a table in the dining room there when he returned from work about 1 o'clock in the morning. He went to his room and procured a revolver. Going into the dining room he displayed the revolver and objected to the party.

He addressed his remarks to Grabhorn and Mrs. Smith. He said Grabhorn had accused him of "prowling around." Grabhorn arose and started for the door. Burkery fired a bullet through his body.

Burkery had roomed at Mrs. Smith's home for three years. The woman works in a down town department store and supports two daughters. She believes jealousy caused the crime.

Grabhorn was 32 years old and married. Both of the women at the wine party are divorcees. Mills, the fourth member, is married.

Story as Rumored in Jacksonville.

This community was treated to a mild sensation, if not a shock, Wednesday when the story of the killing in Kansas City Saturday reached the city. The story as rumored and reported in Jacksonville Wednesday was to the effect that Wm. Burkery, who was brought up in the Buckhorn neighborhood, southwest of Jacksonville, was quietly eating the evening meal in his boarding house in Kansas City, when a drink-crazed fellow boarder insisted upon engaging him in a quarrel. Some words were bandied, when the drunken man, Grabhorn is said to have tried to assault Burkery. The latter jumped to his feet to defend himself. Then Grabhorn is alleged to have made a menacing move toward a hip pocket and so the story goes, had a knife half way drawn when Burkery whipped out a revolver and fired. The shot hit his assailant in the region of the heart; he staggered about twenty feet and fell dead.

Burkery surrendered to the police and was lodged in jail to await a preliminary hearing next Saturday morning.

From the meager details given out by William's brother Pat, who is in Jacksonville for the purpose of procuring funds to employ lawyers, Grabhorn was said to be jealous because a young woman of his acquaintance displayed a fondness for Burkery. This theory is borne out by a story from another source, the author of the latter saying that the lead man lacked the moral courage to attack Burkery until he had taken on a full cargo of whisky.

The Burkery was a well known and popular family southwest of the city. There are besides the aged mother, six brothers and two sisters. The brothers are Pat, Thomas, John, William, James and Dan. The sisters are Mrs. Doolin, widow of the late Alderman William Doolin of this city, and another whose name could not be learned last night, now married and living in Oklahoma.

The Burkerys are all of them hard working men, honest and straightforward. William and another brother were with the United States army in the Philippines and served with distinction. He is known hereabouts as a young man of exemplary habits, one who always appeared backward, shy and unobtrusive. His many friends are hoping that the preliminary hearing at the city court, the Kaw's mouth will result in his complete vindication.

MISS KATHERINE E. LAURIE IS SOON TO BE MARRIED.

Word comes from Minnesota of the approaching marriage of Miss Katherine E. Laurie of Blackduck to Mr. Wesley E. Peik, superintendent of the high schools in that city. Miss Laurie is the daughter of Mr. and Mrs. D. K. Laurie of Baker City, Oregon, and formerly lived in Ashland, where her father was a minister. She is a niece of T. E. Laurie, northeast of the city.

The groom is the youngest son of Mr. and Mrs. Samuel Bennett of Meredosia. He received his education in the schools of Meredosia and for several years has been a valued employee in Berger's meat market. He lately took a position in the Jenkinson-Bode Co., wholesale grocery firm. Mr. Bennett is a member of the Methodist Episcopal church of Meredosia.

Both young people are favorably known in the community and are well known friends. They will reside for the present at 873 North Church street.

Reo Motor Car Company

LANSING, MICH., June 9th, 1914

J. W. SKINNER, Reo Sales Agent,
Jacksonville, Ill.

DEAR SIR:

After consulting with many REO dealers, we wish to announce that our policy is to let well enough alone. There will be no change in the REO model, or the REO price this season.

In the past five years, during which our engineers have confined themselves to this model, the car has been brought to perfection. We have made changes as needed. Again and again important improvements have been added in mid-season.

Some of the Reasons Are These

No changes can be made in the way of improvements now. We reduced the price last year by \$220. In this way we anticipated all the economies of larger sale and output.

The demand for REO the Fifth—which continues to break all records—shows that buyers are satisfied. In this car today they are getting the best value that will ever be offered we think.

We are not going to stand still. We shall keep on, as always, bettering this car as fast as we find a way.

We want you to join with us in keeping up the present enthusiasm for REO the Fifth. Tell every prospect that the car won't be changed. It is as good as we can make it.

Perhaps our rivals will offer some changes as usual. They may in this way try to stir up new interest. But they cannot offer more real value than we do. They can make no changes which will make their cars more formidable competitors. REO the Fifth will hold the same advantage as it has today—the same appeal as a super-car. And every month's production which goes out to users places us in stronger position.

We shall continue our advertising in full force during the summer and fall. A little later we will announce a larger production—three new factory buildings. These we figure, will add forty per cent to our output. In an advertising way we shall stand right with you in keeping cars moving at the present rate against any competition, new model or old.

Base all your plans on these facts. Keep pushing the same as ever. Let it be known that this model is standard. That it represents, both in body and chassis, the best that we know about car building. And the price is the lowest that ever was offered on a car built like this.

Let buyers know that we are giving them our best in this car. That we haven't in mind anything newer or better or lower in price. WE ARE, AS WE ADVERTISE, BUILDING A CAR TO KEEP. Let men know that we shall not discredit it by any new announcement.

Very sincerely yours,

REO MOTOR CAR COMPANY
